Semantics of Programming Languages Past Paper

L1

Operation semantics, Typing rules. Progress and Type preservation lemma.

- y2013p6q9
- y2021p4q8
 - stack
- y2015p6q9
 - o print(e) effect
- y2020p4q8
- y2022p4q9
 - Evaluation context, anomaly
 - LISP dynamic scoping vs static
- y2023p6q9
 - set

L2 (Function)

- y2009p6q9
- y2018p4q8

L3

--

Exception

- y2012p6q9
- y2017p6q9
 - dynamic memory

Effect System

Effects other than store, IO, print, etc

- y2018p4q9
 - {R,W}, formally covered in Part II Compiler Opt Lecture 13
- y2023p6q10
 - o print(e) effect, one possible implementation see y2015p6q9

Subtype

- y2003p6q12
- y2020p4q9

- y2022p4q8
 - reflexivity or transitivity, structural induction

Concurrent

• y2007p6q10

Semantic Equivalence

• y2021p4q9
